DETAILED ACTION

Allowable Subject Matter

1. Applicant's arguments (see Response filed 9/1/04, page 6, lines 15-19; see also Response filed 3/16/04, page 8, line 18 - page 9, line 11) with respect to claims 1-20 have been fully considered and are persuasive. The rejection of claims 1-2, 4, 10-11, 13, 17-18, & 20 under 35 USC §102 and the rejections of claims 3, 5-9, 12, 14-16, & 19 under 35 USC §103 have been withdrawn.

As noted by Applicant, the present invention is directed to the integration of newly input information with information that has previously been printed on cards, such that the two do not interfere with one another on the final printout. This is distinguished from the prior art of record (in particular, the Farros and Stechmann references) which disclose the retrieval of a template to be printed on all cards and the obtaining of newly input information, both of which are then simultaneously printed.
